

# SUMMARY OF 2011-2012 ILLINOIS DEER SEASONS

Forest Wildlife Program, Illinois Department of Natural Resources

## General Information

### Season Dates:

Archery Season: October 1, 2011 through January 15, 2012, closed during firearm deer season in counties open to firearm deer hunting

Youth Season: October 8-9, 2011

Firearm Season: November 18-20; December 1-4, 2011

Muzzleloader Season: December 9-11, 2011 (also allowed December 1-4)

Late-Winter Antlerless Season/CWD Season: Dec. 29, 2011 – Jan. 1, 2012; Jan. 13-15, 2012

**Total Days of Deer Hunting:** 107

**Bag Limit:** One deer per legal permit, with no set limit for total number of deer allowed. No more than 2 antlered deer during the year, except additional antlered deer may be taken during the special CWD season only.

**Significant Changes:** Jo Daviess County was added to those counties having a manned deer check station for the regular firearm deer season in November and December. CWD Season was expanded to all 10 counties where CWD had been detected through June 30, 2011. All newly-added CWD counties were previously open to the concurrent late-winter deer season.

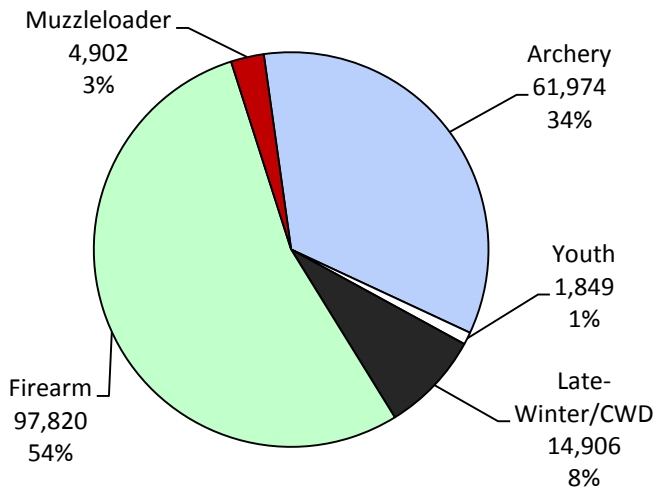

**Harvest Reporting:** Successful deer hunters were required to register their harvest by 10 p.m. on the same calendar day as the deer was taken by using an automated harvest reporting system (telephone or internet). The only exception to automated harvest reporting occurred in select northern Illinois counties during the firearm deer season, where mandatory check stations were staffed by IDNR biologists to collect tissue samples for CWD surveillance.

**Total Harvest (all seasons):** 181,451

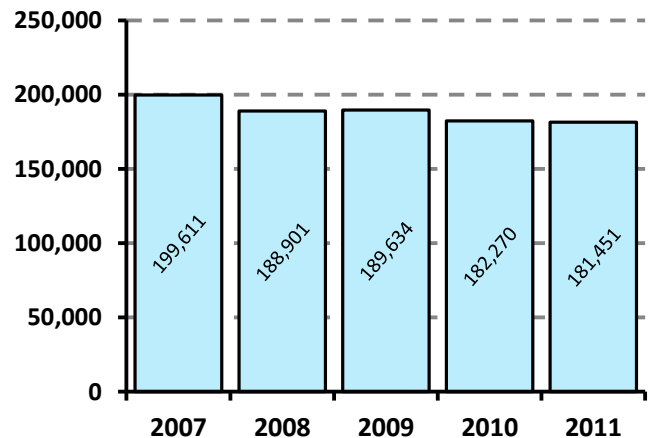

**Record Harvest:** 201,209 (2005)

**Harvest Sex Ratio (all seasons):** 50.8% male: 49.2% female; (38.9% antlered: 61.1% antlerless)

## Permitting

IDNR's Permit Office issued 628,896 deer permits for all seasons, including both lottery-issued permits and over-the-counter permits. This represents a slight decline in the number of permits issued, primarily because of declines in the number of nonresident hunters.

**Number of Counties Open:** 99 (closed in Cook, DuPage, Lake)

### Harvest Age/Sex Summary (All Seasons)

At mandatory check stations, age and sex of harvested deer were recorded by IDNR wildlife biologists. For all other deer reported via the automated harvest reporting system, deer were placed into age classes based on morphological data reported by the hunter. Age classes were female adult ( $\geq 1.5$  years), female fawn, male adult ( $\geq 2.5$  years), male yearling (1.5 years), and male fawn.
