Natural Areas Stewardship Grant - Project Narrative - FY2025

Conservation Land Trust name:
Project Summary
Provide a brief description of the proposed project and why the stewardship action(s) was/were chosen among the other actions identified in the Management Schedule(s). If applicant is seeking equipment and/or supplies, define the primary site(s) where equipment will be stored and used. Listing all potential sites where the equipment/supplies may be used is not encouraged.
Conservation Land Trust Summary
Provide a brief overview of the Conservation Land Trust applying for this grant, including how the organization's purpose aligns with the Conservation Land Trust definition in the <u>Illinois Natural Areas Stewardship Act</u> .
Capacity/Leveraging
How will this grant funding increase the capacity to do stewardship for this particular project and in the future? What other nonfinancial resources, such as personnel, volunteers, equipment, or supplies are available to support successful completion of the project?

Site Information

For applicants seeking equipment and/or supplies, list the primary site(s) where the equipment will be stored
and used only. Note: Work on land owned by the Illinois Department of Natural Resources is discouraged unless
the qualifying and/or significant feature receiving work crosses an IDNR boundary and inclusion of the IDNR
portion of the feature is critical for the success of the stewardship project. Other exceptions may be considered
by the grant reviewers.

Site Name (Official Name from INPC documents)	Landowner, if not the applicant*	Date of expiration for current management schedule

^{*}If applicant is not the landowner, see Supplemental Document Checklist.

Qualifying Features

For each site, provide a brief description of why the site was dedicated or registered by the Illinois Nature Preserves Commission. Applicants should summarize the qualifying and/or significant features present on each site.

Site Name	Qualifying and/or Significant Features Present

Stewardship Action Summary

For each site, provide a list of stewardship actions proposed, the mechanism to complete each action, and the method of how that activity will be performed with grant funds. Mechanisms may include any eligible expenses, such as contractual services, staff time, equipment purchase, or other (if used, please describe). Methods must be approved in the site's Management Schedule. If applicant is seeking equipment and/or supplies, define primary site(s) and use only.

Example:

Site	Stewardship Action	Mechanism (Eligible Expense)	Method
Site A	Honeysuckle removal	Contractual services	Hand cutting and spraying
			with herbicide
	Prescribed fire	Purchase UTV	Staff will use the purchased
			UTV to complete dormant
			season burn

Provide a map for each site that identifies the location of each stewardship action listed above.

Expected Outcomes and Benefits:

Briefly de	scribe the anticipate	ed outcome of the p	project at maintair	ning or improving t	he conditions of t	he qualifying
and/or sig	gnificant features at	the site(s) proposed	d and the urgency	of need.		

Additional Benefits:

Briefly describe any additional project benefits to implementing the following:

- Illinois Natural Areas Plan by preventing unnatural disturbances and restoring ecological processes, and/or the
- <u>Illinois Sustainable Natural Areas Vision</u> by contributing to a sustainable, connected system of natural areas, and/or

including species listed as threatened or endangered in Illinois. Eatement of ability to complete work within the grant period Il applicants selected for funding are expected to complete the proposed project within two years of execution of trant agreement. Provide a brief statement about the Conservation Land Trust's ability to complete the proposed within the timeframe and budget proposed.
