

Prairie Survey
JoDaviess County, Illinois
1993-1994

This report is a compilation of the data collected by volunteers during a county-wide survey begun in the fall of 1993. The purpose of the survey was to find and describe all the prairies in JoDaviess County. A special thanks goes to:

Grace Storch,
Shirley Casper,
Jim Quick,
Sophie Fiedler,

Bob & Judith Wehrle,
John & Barbara Rutherford,
June Patinkin,
Rosemary Burns

Rickie Vickery,
Barbara Siekowski,
Dick & Joan Harmet,
and Laura Dufford.

Traveling the dusty byways of JoDaviess County in search of natural treasure is fun, but it is also hard work. Together, they logged many hundreds of miles.

The initial ground survey, guided by soil and topographic information, was conducted in the fall of 1993. Information was collected on a total of 106 sites. Each site was assigned an identifier composed of a township number (a page number from the county plat book) and a sequence number.

A final ground survey, conducted during the 1994 growing season, found 51 of these sites to be in fair to excellent condition, that is, to be "prairies". It is these sites which are described, in ascending identifier order, in this report.

Jim Rachuy, MS, MCS
September 1, 1994

Name Blanding Sand Prairie Identifier 6-1
State Illinois County JoDaviess Township Hanover
Section 3 Tract SW¼NW¼ Quadrangle T26N-R1E Size 40+ acre
Location SW of River Road, NW of S Blanding Rd, in the Savanna Ordinance Depot

Soils Sparta (88B)

Aspect W Grade 0 - 1%
Watershed Mississippi River Division pool 13
Catena Position river terrace Moisture Level dry

Communities dry sand prairie

Surroundings black oak woodland, river forest

Species Sorghastrum nutans, Andropogon gerardii, Lespedeza capitata
Liatris aspera, Andropogon scoparius, Hieracium longipilum, Lithospermum
canescens, +

Special Features less disturbed than much of the rest of the Depot

History never plowed or grazed

Condition little disturbed, good diversity
needs a burn, but that is problematic in an arsenal

Comments as good a site I have visited in the depot, but there are many others
collected seed in '93 for Blackjack Prairie

Name Savanna Army Ordinance Depot Position owner
Address _____
Town _____ State _____ Zipcode _____
Telephone (____) _____ or (____) _____

Name Bob Speaker Position manager

Town East Dubuque State IL Zipcode 61025
Telephone (815) 747 — 3501 or (____) _____

Name Whitton Sand Prairie Identifier 7-1
 State Illinois County JoDaviess Township Hanover
 Section 29 Tract SW¼NW¼ Quadrangle T26N-R2E Size 200+ acre
 Location SW of B&N RR, from W Depot Rd to Crazy Hollow Rd

Soils Sparta (88B)

Aspect E Grade 0 - 2 %
 Watershed Mississippi River Division pool 13
 Catena Position river terrace Moisture Level dry

Communities dry sand prairie, disturbed dry to wet sand

Surroundings artificial

Species Sorghastrum nutans, Achillea millefolium lanulosa, Verbena hastata,
Tradescantia ohiensis, Lespedeza capitata, Elymus canadensis, Andropogon gerardii,
Andropogon scoparius, Sporobolus cryptandrus, Hieracium longipilum, Lithospermum
canescens, Aristida tuberculosa
 Special Features very large size

History heavily pastured, disturbed by construction

Condition degraded; with close management, some parts could be restored

Comments

Name Hanover Springs Identifier 7-2
State Illinois County JoDaviess Township Hanover
Section 28 Tract SW¼SW¼ Quadrangle T26N-R2E Size 0.5 acre
Location NE edge of Whitton Rd, S from Hanover Bluffs Nature Preserve to quarry

Soils Lacrescent (785G), Derinda (417F)

Aspect SW Grade 3 %
Watershed Mississippi River Division pool 13
Catena Position near bottom Moisture Level dry-wet

Communities dry sand prairie, wet sand prairie, disturbed dry-wet sand

Surroundings pasture, artificial

Species Lysimachia quadriflora, Asclepias incarnata, Eupatorium perfoliatum, Carex comosa, Ratibida pinnata, Typha latifolia, Astragalus canadensis, Onosmodium molle, Anemone virginiana

Special Features several small springs, with Rana pipiens

History variously abused, but still special because of the unique hydrology

Condition weedy, but interesting

Comments these springs deserve some protection by the Township

Name The Three Sisters Identifier 7-3
 State Illinois County JoDavie Township Hanover
 Section 20 Tract SW $\frac{1}{4}$ SE $\frac{1}{4}$ Quadrangle T26N-R2E Size 3 acre
 Location NE and above Whitton Rd on three separate bluff point

Soils Seaton (274F), Elizabeth (403D)

Aspect SW Grade 5 - 25 %
 Watershed Mississippi River Division pool 13
 Catena Position top Moisture Level dry

Communities dry prairie, exposed cliff

Surroundings cedar glade, oak woodland

Species Dalea candida, Onosmodium molle, Sporobolus heterolepis, Asclepias lanuginosa, Koeleria pyramidata, Stipa spartea, Solidago ptarmicoides, Muhlenbergii sobolifera, ++ (see species file)

Special Features deep loess soil

History never plowed or grazed; now part of nature preserve; brush cut in '92

Condition excellent diversity; problem plants include Alliaria petiolata, Populus tremuloides, Juniperus virginiana crebra and Melilotus alba

Comments there is a fourth sister (deceased) to the NW; one point should be burned every year
