ADDITIONAL REQUIREMENTS

In addition to your Late-Winter Deer Season permit, you must have the following:

Hunting License: A valid Illinois Hunting, Sportsman's, Youth, or Apprentice License unless you are:

1. A disabled person with a State ID card available from the Secretary of State through the driver license examining station showing a P2, P2A, H2 or H2A disability.
2. A disabled veteran with a Veterans disability card (at least 10% service related); available from local Illinois Department of Veterans' Affairs offices.
3. An Illinois resident on active duty and on leave from the U.S. Armed Forces.
4. A landowner or tenant residing on farmlands, or the children, parents, brothers and sisters permanently residing on such lands, and hunting only the lands resided on.

Habitat Stamp: Before any person 18 years of age or older takes, attempts to take or pursues a deer, he or she shall first obtain a State Habitat Stamp. Disabled veterans and former prisoners of war shall not be required to obtain State Habitat Stamps. Any person who obtained a Lifetime License before January 1, 1993, shall not be required to obtain a State Habitat Stamp.

FOID Card (issued by Illinois State Police): Regardless of who owns the gun, anyone who has a firearm, including muzzleloaders, or firearm ammunition in their possession must have in their possession a valid Firearms Owner's I.D. (FOID) Card unless he or she is:

A licensed out-of-state-sportsman hunting in Illinois, or under the age of 21 and under the immediate control of a parent, guardian, or responsible adult who has in their possession a valid FOID Card. For FOID Card information, call 217-782-7980.

REPORTING DEER HARVEST

Successful hunters must register their harvest by 10:00 p.m. on the same calendar day the deer was taken by calling the toll-free telephone check-in system at 1-866-ILCHECK or by accessing the online check-in system at <https://www.exploremoreil.com/wildlife/harvest>. They will be provided with a confirmation number to verify that they checked in their harvest. This number must be written by the hunter on the temporary harvest tag (leg tag). If the condition of the tag precludes writing on the tag in the appropriate space (i.e., bloody, etc.), the confirmation number shall be written elsewhere on the tag, or onto a piece of paper and attached to the deer along with the temporary harvest tag. The deer must remain whole (or field dressed) until it has been checked in. In instances where deer are checked in while the hunter is still afield, the deer may not be dismembered while afield beyond quartering the animal. If quartered, all parts of the carcass (except the entrails removed during field dressing) must be transported together and evidence of sex must remain naturally attached to one quarter. Evidence of sex is:

- a. For a buck: head with antlers attached to carcass or attached testicle scrotum, or penis.
- b. For a doe: head attached to carcass or attached udder (mammary) or vulva.

The harvest tag (leg tag) and confirmation number must remain attached to the deer until it is at the legal residence of the person who legally took or possessed the deer and final processing is completed. If the head/antlers are delivered to a taxidermist for processing, the confirmation number must be recorded on the "head tag" portion of the permit and both must remain with the deer while at the taxidermist. If the carcass is taken to a meat processor, the harvest tag (leg tag) with confirmation number must remain with the deer while it is processed and until it is at the legal residence of the person who legally took or possessed the deer. Persons delivering deer/parts of deer to a tanner for processing must supply the tanner with either their deer permit number, their confirmation number, or a written certification by the person from whom the deer was received that the specimen was legally taken or obtained.
