Re: Renewal No. 3 to Permit No. 399  
Deer Run Mine  
Incomplete

Dear Mr. Cross:

This letter will serve as notice that the Renewal application for Deer Run Mine, submitted under the Surface Coal Mining Land Conservation and Reclamation Act and the promulgated rules and regulations, is **not** administratively complete for review.

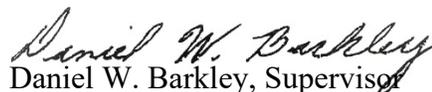

Please resubmit your application after addressing each of the deficiencies indicated here and in your online application. Once resubmitted the Department will review the application responses to determine if it is administratively complete.

**1.1.2:** In response to Question 1.1.2, the applicant did not provide evidence that performance bond will continue in full force and effect for any renewal, as well as any additional bond required by the Department. Pursuant to 62 Ill. Adm. Code 1777.11(a)(3), the applicant shall upload this information along with the current insurance certificate.

**1.5.2:** In response to Question 1.5.2, the applicant provided a list of violations for the organization but did not upload supporting documentation for the outstanding violations, mostly with IEPA. Pursuant to 62 Ill. Adm. Code 1778.14(c), the applicant shall upload supporting documentation for all violations listed in Table 1.5.2. that has not been resolved to the satisfaction of the issuing agency.

Should you have any questions, please contact this office.

Sincerely,

  
Daniel W. Barkley, Supervisor  
Land Reclamation Division
