Describe all changes since last inspection, including change in operator or contractor and name(s) of any person(s) who accompanied you during this inspection (citizen, chief, and other federal or state inspectors); etc.

Complete inspection - All structures with KPDES sampled and in compliance. Yes No If Yes not selected, list points in violation.

Inspection of Non-Compliance 13-2574 conducted on this date. An extension has been granted until 06/21/2023 to allow additional time for the Permittee to safely abate the violations. The permittee is currently working on abating the SC violation, but needs additional time to complete the work. The Permittee has begun abating the BG violation, but needs additional time to complete the work. This inspection was also an OSM oversight. I was accompanied by OSM Inspector- Brian Smith and DMRE Madisonville Regional Office Chief - Glenn Lacy during this inspection.

A review of Surface and Ground Water Monitoring Reports for the 1st Quarter 2023 was conducted on 05-26-2023 and all reports were found to be complete with no problems noted.

FP: OT - The renewal for this permit needs to be submitted prior to 120 days of the expiration of the permit.

FP: RV - The Permittee caused a disturbance by removing a beaver hut located at a W-08, prompting the need to seed the area affected by the disruption.
