ON THE COVER

In September 2014, it was brought to IDNR's attention the Kelly family might be interested in selling property in McHenry County, Bull Valley area, as they had a commitment to preservation and conservation of natural areas. However, their father had just passed away and they needed time to settle their estate.

In November 2022, a Broker representing the Kelly family contacted IDNR regarding selling the land with the encouragement of John Nelson, Field Representative with the Illinois Nature Preserves Commission. The sellers recognized the long-term preservation of the unique property but also the means of closing the loop on nearby adjacent properties already under environmental preservation plans. The 148.659 acreage fits well with the existing preserved land and compliments the long-term plan for environmental preservation.

John Nelson noted "the acreage in the Boone Creek Fen and Seep Illinois Natural Areas Inventory (INAI) site will unite several disconnected preserves into one ecologically functional wetland complex. The parcel is contiguous, or nearly so, with seven privately dedicated Nature Preserves and four conservation easements. The headwaters of Boone Creek in the uppermost portion are jointly owned by IDNR and the McHenry County Conservation District. The property offered for sale represents an extraordinary land protection opportunity, not only for this site, but for the region and the State of Illinois."

Situated on level and deep organic peat soils of the valley floor, this single property contains over 50 percent of the total length of Boone Creek that naturally meanders through the natural area. On either side of the creek are extensive sedge meadows and fen wetlands, some of which suffer from past land use and invasive species. Those portions have undergone active management and have responded well, proving the native seed bank remains intact. Acquisition will facilitate land protections, land management and restoration of a very large, high-quality fen wetland complex with an intact groundwater system.

This land acquisition represents one of the finest wetland restoration opportunities remaining in the Chicagoland Area.

Equal opportunity to participate in programs of the Illinois Department of Natural Resouces (IDNR and those funded by the U.S. Fish and Wildlife Service and other agencies is available to all individuals regardless of race, sex, national origin, disability, age, religion or other non-merit factors. If you believe you have been discriminated against, contact the funding sources's civil rights office and/or the Equal Employment Opportunity Officer, IDNR, One Natural Resources Way, Springfield, IL 62702-1271; 217-785-0067; TTW 217-782-9175. This information may be provided in an alternative format if required. Contact the IDNR Clearinghouse at 217-782-7498 for assistance.
