

**Fishing and Night Hike  
Owl Program**  
**at Pere Marquette State Park**  
**Friday October 4 and Friday**  
**November 1 , 2024**

Meet at the Visitor Center for an educational **program on fish and fishing** at 5:30pm, with urban fishing coordinator Scott Isringhausen. Following the talk, **kids can fish** at the Blue Gill pond that sits right next to the visitor center.

At 7:30pm, we will start a **program on owls** and other creatures you might hear at night when you are outdoors fishing, camping, hiking, etc. Following the program, the group will take a **night hike** to listen for owls and other night sounds. The hike will be about 2 miles long and a portion of it will be uphill. Join us for a **hotdog and marshmallow roast** when the hike is over! Please bring one flashlight per family. **Refreshments and drinks will be provided.**
