PUBLIC NOTICE

ALTO ICP LLC
REHABILITATION OF THE EXISTING BARGE LOADING DOCK AND CONSTRUCTION OF A
NEW BARGE LOADING DOCK
TAZEWELL COUNTY

Notice is hereby given to all interested parties that the Illinois Department of Natural Resources, Office of Water Resources (IDNR/OWR) has received an application for permit from Alto ICP LLC, 1301 South Front Street, Pekin, IL 61554, to rehabilitate the existing barge loading dock and construct a new barge loading dock at their facility along the Illinois River at River Mile 151.6, in Tazewell County (40.55611°, -89.67167°). A location map and site layout are provided on the second page of this notice.

The proposed project consists of rehabilitating the existing dock to handle dry good loading and constructing a new barge loading dock to handle liquid goods loading on the left descending bank of the Illinois River. Rehabilitation of the existing barge loading dock includes new support piers for the dock and new monopiles constructed along the existing barge berthing line. The project also includes the construction of a new barge loading dock facility just upstream of the existing dock, which will consist of a floating dock supported on new piers and a conveyor system on trusses. Monopiles will be constructed along the berthing line of the new dock and will be located on the same alignment as the existing barge loading dock. Dredging of approximately 4,800 CY of material along the new barge berthing line is also proposed. Project construction is anticipated to begin in February of 2026, and continue until December of 2026.

Inquiries may be directed to William B. Milner, Jr at 217/524-1458. All interested parties are invited to submit written statements regarding the proposed work to the Illinois Department of Natural Resources, One Natural Resources Way, Springfield, Illinois 62702 by **February 9, 2026**.
