PUBLIC NOTICE

LANDWEHR CONSTRUCTION, INC.
BARGE LOADING DOCK REPLACEMENT
ILLINOIS RIVER
MASON COUNTY

Notice is hereby given to all interested parties that the Illinois Department of Natural Resources, Office of Water Resources (IDNR/OWR) has received an application for permit from Landwehr Construction, Inc., 851 60th Street South, St. Cloud, MN 56301, to replace the barge loading dock sheetpile wall at their facility along the Illinois River, in Mason County (40.312961°, -90.064781°). A location map and site layout are provided on the second page of this notice.

The proposed project consists of replacing the existing dock wall with a new sheetpile wall driven adjacent to the existing one to minimize any potential impacts associated with the project. The application and plans estimate the new sheet pile wall placement at approximately 5 ft in front of the existing wall. The top of the new sheetpile wall will be raised to an elevation of 454 ft and backfilled with material to create a level base and crane pad for offloading from barges. The project also includes the placement of riprap along the sheetpile wall tie-back sections.

Inquiries may be directed to William B Milner Jr at 217/524-1458. All interested parties are invited to submit written statements regarding the proposed work to the Illinois Department of Natural Resources, One Natural Resources Way, Springfield, Illinois 62702 by **March 27, 2026**.
