PUBLIC NOTICE

**REVISION TO PERMIT TO INSTALL BOAT DOCK ON THE ROCK RIVER AT
SHOREWOOD PARK IN THE CITY OF ROCKFORD**

Notice is hereby given to all interested parties that the Illinois Department of Natural Resources, Office of Water Resources (IDNR/OWR) has received a request to revise the previously issued permit for the Rockford Park District, 401 South Main Street, Rockford Illinois 61101 to install a boat dock on the Rock River at Shorewood Park in the City of Rockford in the Southeastern quarter of section 12, township 44 North, range 1 East of the 3rd Principal Meridian in Winnebago County. A location map is provided on the second page of this notice.

The submitted plans indicate that the replacement boat dock will measure 40' by 20' and will replace the previously existing 36' by 20' dock. The dock will be anchored to the shore in a similar location as the previous dock but will be 9 feet further downstream and 2 feet further into the channel than the previously existing dock. The dock will be anchored to the bed of the river and the dock will be manually adjusted for height based on river conditions. If the dock is submerged during a flood event, buoys will be attached to the dock to indicate its location. The approach ramp will be anchored to the seawall.

Inquiries may be directed to Kristian Peterson at 217/558-4532. All interested parties are invited to submit written statements regarding the proposed work to the Illinois Department of Natural Resources, One Natural Resources Way, Springfield, Illinois 62702 by September 24, 2024.
